

Gilt Bronze Medallion, Flanders. Late 17th Century.

440 EUR

Period : 17th century

Condition : Très bon état

Material : Bronze

Width : 8 cms

Height : 13 cms

Description

A lovely oval framed medallion, gilt bronze, with its original gilding, depicting a young man wearing a typical Flemish hat and holding a tankard in his right hand. The background is pitted, the sculpture is very fine, and the movement is well-executed. The oval frame, made of blackened wood, may be original, but it has been cracked and repaired. 17th century, Flanders.
