Description

Sketch - Night Festival on the Lido, Nîmes. This painted sketch depicts a nighttime scene on the Lido in Nîmes, bathed in a festive and poetic atmosphere. The composition is distinguished by a free and expressive brushstroke, where the interplay of light and reflections on the water structure the space and suggest movement. The artist prioritizes the moment and the sensation, capturing the animation of the night with a palette dominated by deep blues, nuanced greens, and luminous highlights. This spontaneous approach lends the work a great modernity and a true pictorial presence. Presented in a frame, this sketch captivates with its sensitive and evocative character. A choice piece for lovers of modern figurative art and for a collection attentive to nighttime scenes and light.
