Description

Rare pair of factory or workshop timecard holders in solid wood and metal, from a former workshop - Early 20th Century. Each module has a solid wood frame topped with an original hanging eyelet for easy wall mounting. The two columns are identified by original enamel plaques marked "ENT" (Entry) and "SOR" (Exit). They retain their numbered metal compartments and period cardboard cards, giving them a superb character. The set has a beautiful patina of use, testifying to its industrial history, without major restoration to preserve its authenticity. Ideal for Loft or Industrial style decor, or repurposed as an original letter or photo holder. Good overall condition with marks and signs of use. Careful shipping via secure parcel or carrier according to your preference.
