Description

Set of 9 Industrial Spinning Bobbins in Composite Material (Wood or Hardened Cardboard) - Early 20th Century. These authentic pieces display a remarkable workshop patina, with shades ranging from light wood to deep brown. The robust structure, reinforced in the center, testifies to their intensive use in former textile factories. Now objects of curiosity, they offer a highly sculptural effect through their graphic accumulation. Ideal for loft decor, they can be displayed under glass domes or repurposed as original candle holders. The set has been carefully cleaned without restoration to preserve their authenticity and traces of age.
