### Description

This charming sewing table in solid beechwood perfectly illustrates the refinement of the Louis XV style, revisited at the beginning of the 20th century with timeless elegance. Its undulating framed top reveals a drop-front, partially concealed by a large mirror. Inside, it offers compartmentalized storage space, ideal for organizing small items or precious accessories. A functional lock and key secure the drop-front. The table's apron is undulating, molded, and richly carved with relief ornamentation: flowers, shells, and foliage. This small table rests on graceful, finely carved, cabriole legs, giving it a visual lightness and undeniable presence.\*\*\*\*\*Period: Early 20th century. Excellent condition after restoration in our cabinetmaking workshop. Waxed finish. Delivery
