Description

A finely crafted, high-quality Louis XVI style gilt bronze alcove and wall clock, with a movement by Planchon of Paris (1842-1921), a clockmaker, inventor, and creator of automata, as well as a historian and theorist of horology. In good working order. Note a small chip on the dial and an old but not original pendulum. 19th century. For further information, please do not hesitate to contact us. Delivery or shipping available upon request.
