

Statue Of Liberty Made From Car Parts (metal)

15 000 EUR

Period : 20th century

Condition : Très bon état

Material : Metal

Width : 70

Diameter : 70

Height : 290

Description

Statue representing an iconic figure of liberty, entirely handcrafted from recycled automotive parts: chains, gears, mechanical components, and welded sheet metal. Every detail is assembled and worked by hand, giving the piece a distinctly industrial/steampunk style. This artwork was created approximately 20 years ago, lending it a truly vintage character and a natural patina acquired over time and with the metal.

Specifications: Material: Steel/Metal; Origin: Recycled automotive parts; Manufacturing: Handcrafted, hand-welded; Age: Approximately 20 years; Unique piece: Yes; Style: Industrial, Steampunk, Recycled Art; Condition: Good overall condition, with normal signs of age and wear consistent with the material; Dimensions: Height: 290 cm; Width: 70 x 70 cm; Uses: Ideal
