

Okuyi Punu Mask Gabon

1 400 EUR

Period : 20th century

Condition : Etat d'usage

Description

Among African art, Punu masks have always been admired for their high artistic quality. These idealized female portraits are worn by dancers on stilts during spectacular performances. I particularly love the serenity and peace emanating from these faces, reminiscent of Buddha. Height 29 cm, beautiful patina from use; note the exquisite sculpting of the hairstyle, the symmetry, and the perfect beauty of the face, typical of ancient models... region de Mouila
