### Description

A delightful little painting, this "Barbizon" school work, in a simple, patinated wooden frame with a wide cornice, is an intimate and spontaneous painting on a beautiful canvas panel with an old advertisement from the second half of the 19th century. This charming rural scene is executed with a vigorous yet delicate touch and a beautiful texture. The colors are all in harmony with nature: the foliage of the trees, the sky both luminous and turbulent, and the team of horses and carts climbing the rutted road. The figures that bring it to life are also noteworthy: the person in the white hat guiding the horses, accompanied by a child dressed in red; the peasant in the blue smock leading the convoy; and the figure pushing from behind. A beautiful light reigns in this masterful work, allowing one to dream of a world
