### Description

Pair of T-Line designer armchairs, created in 1982 by German designer Burkhard Vogtherr for the manufacturer Artflex. These armchairs feature an elegant black tubular frame, characteristic of the minimalist and functional design of the early 1980s. The seat and backrest, upholstered in deep blue fabric, offer soft and enveloping comfort, true to Vogtherr's ergonomic approach. Authentic pieces, rare on the market, and representative of European design from the postmodern period. Very good overall condition.
