### Description

Charming 1950s wooden box decorated with a figurative scene of two carved dogs playing cards, seated on either side of a table. Each dog holds a hand-painted deck of cards with lovely expressive details. The box opens from the top: the central tray lifts to reveal an interior storage compartment for a deck of cards or a pack of cigarettes. The black dog's head can be removed to reveal a small lighter. Shipping available, please contact me.
