Description

A substantial lacquered wooden cheval mirror decorated with flowers, cords, and ribbons, dating from the Art Deco period around 1920/1930. Its perfectly stable and solid structure is mounted on casters, allowing for easy movement. This cheval mirror retains its original paint, resulting in numerous areas of missing color and wear evenly distributed across the piece (see detailed photos). While these imperfections are significant, they contribute to the charm and authenticity of this fresh and romantic piece. Ideal for a shabby chic atmosphere.
