Description

A stunning and refined pair of Rococo-style chairs in beautiful heartwood walnut. Airy and richly detailed, these two charming chairs from the late 19th century are true works of art, so intricate is the carving, so rich in Rococo ornamentation, and so meticulously crafted. These two pieces are undeniably decorative. Indeed, their previous owners had the seats reupholstered in a lovely (and rest assured, artificial) lizard skin, which suits them perfectly. Once paired with contemporary furniture, they can now grace any interior, from the entryway to the living room and even the bedroom; a neo-Baroque bathroom would be equally at home with them. In short, these are beautiful pieces, both light and sturdy, of high quality, very pleasing, and ready for immediate use if one
