

Prehnite Garnet Earrings On Blackened Silver

600 EUR

Period : 20th century

Condition : Parfait état

Material : Sterling silver

Description

For pierced ears. Silver gemstone earrings featuring a leaf motif set with small green and orange garnets. A cabochon-cut prehnite pendant is set in a prong setting. The clasp is a post with a butterfly back. Main material: blackened 925 sterling silver. Proportions: Height: approximately 2 cm, width: approximately 17 mm, thickness: approximately 6.5 mm. Net weight: approximately 4.8 g. Our opinion: These earrings are feminine, colorful, and original.
