Description

This shop counter or workshop worktable is a very attractive size, over three meters long. Given its age and previous use, it naturally shows a fair amount of wear and tear, which only adds to its charm. It is perfectly stable and solid. The top is made of fir, with one plank partially replaced. The uprights are made of a denser wood, possibly oak. I don't know the type of panels. Shipping is possible; viewing in Caen by appointment. More photos available upon request.
