Diameter : 36 cm

Height : 6,5 cm

Description

Large Acid-Etched Glass Bowl/Plate - Daum Nancy, France - Circa 1920. A substantial circular bowl or plate in thick glass, featuring a stylized geometric design etched with acid, typical of the Art Deco production of the Daum Nancy factory. The decoration, punctuated by angular geometric motifs and structured friezes, is created in relief by acid etching on a satin background, offering an elegant contrast between matte and glossy surfaces. The piece demonstrates meticulous craftsmanship and high-quality execution, characteristic of Daum creations from the early 20th century. The piece is signed "Daum Nancy France" in relief, a molded signature characteristic of the company's production from the late 1910s onward. French work, circa 1920. A beautiful decorative object,
