Description

TAG Heuer Carrera Automatic Twin-Time - Wristwatch - Full Set - 2012 CRM25TAG001. This TAG Heuer Twin-Time wristwatch, an iconic model from the Swiss watchmaker, is presented in excellent condition and is perfectly complete. This pre-owned watch is fully functional and shows some minor scratches on the case. The sapphire crystal is in perfect condition. The case back has a glass panel that allows you to admire the movement in operation and the rotor that automatically winds the watch's mainspring. This piece was purchased new in 2012 at Printemps Haussmann in Paris and comes with all of its original components. Contents of the set: TAG Heuer Twin-Time watch, original TAG Heuer box, presentation booklet, original warranty card, extra bracelet links. Technical

specifications: Case: stainless steel, Diameter: 39 mm (excluding crown), Height: 43 mm (including lugs), Thickness: approx. 11 mm, Lug width: 20 mm, Case back: screw-down, Crystal: sapphire, Bracelet: TAG Heuer steel with original spare links. Movement: Caliber: TAG Heuer Caliber 7 (based on ETA 2893-2), Type: automatic mechanical movement, Frequency: 28,800 vibrations/hour, Power reserve: approx. 42 hours. Twin-Time (GMT) Function: The Twin-Time function allows the simultaneous display of two time zones: Main hour hand for local time; dedicated GMT hand rotating every 24 hours, readable on a 24-hour scale. This complication is particularly appreciated for travel and illustrates TAG Heuer's technical expertise in elegant, functional watches. This watch is entirely original, meticulously preserved, and offered in a full set configuration, an essential criterion for collectors and enthusiasts of contemporary Swiss watchmaking.
