Description

A rather large vase... By KOROKUSAN... From JAPAN... Gorokusan, Shimoishi-cho, Toki City, Gifu Prefecture... Glazed terracotta... With a predominantly green glaze... With many different shades... The potter's work is remarkable! Because it's all worked from a single block... I think it's from the 1950s/60s... Even though the shape is in the Art Deco style... In perfect condition... Some of the pieces have manufacturing flaws... But that's all part of the vase's beauty! Signed on the bottom... For your information, it's very difficult to tell you everything about Japanese ceramics... I'm not an expert... But I know it's a very beautiful object that has received awards... See the translation of the certificate... Sold with its original box...

Weight... 3 kg 482 g
