Description

A charming lady in a countryside setting, seated and posing with her overflowing woven basket; she is delightful in her pretty hat and gazes into the distance. She exudes a great deal of innocence, this lovely woman in pastel tones. A work from the very beginning of the 19th century, with 18th-century canons in the style of Fragonard, presented in a beautiful blond burl wood frame with guilloché gilt borders, this lovely miniature is sure to appeal to a discerning collector. A collector's item not without its charm... Review
