

Elegant Scandinavian Bookcase-bar, 1960s

890 EUR

Period : 20th century

Condition : Bon état

Material : Teak

Length : 83

Width : 40

Height : 198

Description

A rare freestanding wall shelf in teak veneer, resting on a black lacquered metal frame, typical of 1960s Nordic design. It features wide open shelves and a central cabinet (originally a bar with a mirrored shelf inside) closed by a drop-down door, offering a beautiful balance between functionality and visual lightness. Clean lines, harmonious proportions, and quality materials make this piece ideal for a contemporary or modernist interior. In very good overall condition, with a lovely patina from use.
