Rare Sa Feldherrnhalle - Npea Transformation Frog

450 EUR

Period : 20th century

Condition : Bon état

Description

This rare frog was produced as an SA feldherrnhalle vertical hanger, later transformed to an NPEA dagger frog by cutting a hole on the front side for the NPEA scabbard hook. These hangers are recognizable by the small hole on the right side for the SA dagger's scabbard ring and the RZM marking on the backside. Constructed with multiple layers of leather. This hanger is a very good add-on to a naked NPEA dagger. One of the rivets has been replaced as can be clearly seen on the photos.
