Description

Dutch-style chandelier with twelve arms of light on two levels. This chandelier was originally designed for candlelight; therefore, none of the cups or sockets are drilled. Our light fixture is made of bronze and brass and has a beautiful antique patina. Note a few traces of oxidation, which do not detract from the aesthetic appeal of this beautiful light. A fine piece of late 19th-century craftsmanship. We would like to point out that it is, of course, possible to have this chandelier adapted for electricity. Dimensions: Height: 63 cm, Diameter: 68 cm, Diameter of each cup: 10 cm. For shipping costs by carrier, please contact us.
