Roman Micromosaic

650 EUR

Period : 20th century

Condition : Bon état

Material : Marquetry

Length : 25.5

Width : 16

Description

Large chrome-plated metal hanging cross inlaid with micromosaics depicting various emblematic sites of Christian Rome, with St. Peter at its center. Christ is depicted in "bones," with reattached arms; a piece of the crown of thorns is missing on one side. In excellent overall condition except for this trace of oxidation on the back of the cross (see photo).
