

Large Cut Crystal Water Pitcher, European Crystal Makers, 20th Century

320 EUR

Period : 20th century

Condition : Très bon état

Material : Crystal

Length : 19

Diameter : 12

Height : 28

Description

A very beautiful, large cut crystal water pitcher of exceptional quality, a 20th-century European piece in the style of the great crystal houses of Baccarat, Nachtmann, or Rogaska. It features a lovely, slender body, a faceted and blade-cut decoration on the base, a polished base, an applied sculpted handle, and a well-defined, fluted neck. The crystal is luminous, thick, heavy, and highly brilliant, with beautiful optical effects in the light. This is a high-end crystal production model from the 1970s-2000s. It measures 28 cm in height, 19 cm in depth including the handle, and has a maximum diameter of 12 cm. In excellent condition, with no significant chips or scratches. Weight approximately 1-1.5 kg.
