Description

Period: early 18th century (circa 1700-1720) Technique: carved and moulded wood with guilloché decoration in relief, black finish Provenance: Italy Dimensions Overall size: 58 × 65 cm Sight size (inner opening): 29 × 22.5 cm Frame width: 18 cm Rabbet: 1.5 cm Depth: 7.5 cm Description Important Italian guilloché frame from the early 18th century, featuring a deeply moulded stepped profile with concentric architectural mouldings and finely carved guilloché decoration along the bands. The impressive depth and strong architectural structure give this frame a monumental presence, making it particularly suitable for small paintings on panel or canvas. The black finish enhances the geometric design of the mouldings and the powerful architectural profile, giving the frame an

elegant and austere appearance. Condition Good overall condition, with normal signs of age and wear; structurally sound. Historical note Guilloché frames from the early 18th century represent a transitional typology between late Baroque and early Rococo, characterized by strong geometric rigour and pronounced architectural depth.
