

Venetian Six-light Chandelier In Crystal, Opalescent Glass, Opaline Glass And Murano Glass

1 450 EUR

Period : 20th century

Condition : Très bon état

Material : Crystal

Description

Six-light chandelier with a successful blend of delicate colors: crystal, opaline, Murano glass, and opalescent glass on a silver-plated metal frame. Each arm is adorned with three rows of beads, each ending in a finely striated Murano glass pendant in transparent blue and green. The same pendants are repeated between each arm and at the center of the chandelier, on three levels. These pendants exhibit slight variations in size and appearance, confirming the handcrafted nature of this chandelier, which originated in the Venice region. No cracks or damage, recently rewired including the bulb holders, and in perfect working order, ready to be installed. Dimensions: Diameter 55cm Total height 108cm (reducible to 87cm by removing links) Height of the chandelier without the chain 63cm Further information
