

Pair Of Restoration Period Candlesticks In Chiseled And Gilded Bronze.

2 800 EUR

Period : 19th century

Condition : Parfait état

Material : Bronze

Height : 29

Description

Important pair of mercury-gilt bronze candlesticks, Restoration period (circa 1820-1830). Exceptional pair of large bronze candlesticks, finely chased and mercury-gilt, from the Restoration period. The particularly rich and abundant decoration extends the full height of the stems, alternating decorative friezes and stylized motifs, resting on wide sculpted bases. The quality of the chasing, the beauty of the gilding, and the harmonious proportions give this set a remarkable presence. Dimensions: Height: 29 cm. Base diameter (Depth): 13.5 cm.
