Depth : 90

Description

This is a beautiful and sophisticated piece of 20th-century furniture. The table features a frame composed of four expertly folded steel plates, then joined together. The distinctive shape, in addition to being a highly innovative design for the time, also features a very thick glass top. The four corners are joined by steel rods. The steel is brushed and beautifully finished. Its lines and quality are very similar to those of designer François Monnet, but it bears no labels or trademarks. The table is in good condition with minor signs of wear consistent with its age and completely irrelevant to its overall aesthetic. This table is a perfect addition to a modern living room, embodying the quality and innovative design typical of 1970s furniture and becoming the focal point of your living room.
