Late 19th Century Mahogany Corner Cabinet

680 EUR

Period : 19th century

Condition : Très bon état

Material : Mahogany

Height : 150 cm

Depth : 73 cm

Description

Charming Napoleon III mahogany and mahogany veneer corner cabinet with a curved shelf, late 19th century, in very good condition. This corner cabinet is easy to place in a corner, with a radius of only 73 cm. The mahogany veneer on the doors and top features beautiful, harmonious, and symmetrical patterns with attractive framing on the rails. It retains its original two-tiered shelf, which lightens the piece and gives it a slender appearance. The ornamental supports for these shelves are made of solid mahogany. The veneer and varnish are in excellent condition, and the lock works with its key. A practical and functional piece that will harmoniously furnish a corner of a living room or dining room... the storage space is considerable! An elegant and understated Napoleon III corner cabinet.
