Description

A curved Art Deco sideboard. The faded front reveals perfect geometry. This ogee shape is enhanced by a recessed top decorated with a burlwood motif. The chamfered legs rest on a mortise and tenon stretcher, providing added sturdiness. The sides feature a downward grain, as if to clad a frame in a single piece of wood. The interior includes a shelf with sycamore and rosewood stringing. This shelf perfectly follows the shape of the cabinet. The recessed door design further refines the craftsmanship. Enjoy the benefits of this stylish, functional, and understated piece in your home. Delivery is available but not included in the price.
