Description

Orientalist Bronze Candlestick - 19th Century.
This small, highly decorative figurative bronze candlestick, with its nuanced golden-brown patina, depicts a reclining oriental figure holding an antique-inspired vase in the form of a candle holder. A decorative piece characteristic of the second half of the 19th century, blending Orientalism and Neo-Classical references, it was very popular in the bourgeois interiors of the period. The expressive modeling of the face, the treatment of the drapery, and the balanced composition attest to a high-quality, likely French, production. A very beautiful object with a strong decorative presence. Period: 19th century. Material: Bronze with an antique patina and black marble. Function: Candlestick. Condition: Good overall condition, wear and patina variations
