Description

Rare silver-plated musical timpani. The "Swiss made" mechanism is located in the base of the timpani and is triggered when it is picked up. The locking button then releases. Mechanical winding, perfect working order. No hallmarks or maker's mark. I have not opened the mechanism. I describe it as silver-plated, but it is possible that it is solid silver. In any case, no wear, perfect condition. Height: 7.5 cm Diameter: 6.5 cm
