

Bronze Seal And Tails

120 EUR

Period : 19th century

Condition : Très bon état

Material : Bronze

Description

A monk-like figure, perched on his pedestal, could be more endearing, as he surveys the Playmobil figure with a certain disdain... For once, he's found a subject smaller than himself... So our little fellow waits patiently, hands behind his back, like a late 19th-century caricature of a horse racing enthusiast. A small bronze display piece without a monogram to seal.
