Description

Two paintings on fabric, of Persian origin, dating from the late 19th century. These two paintings, although framed differently, can be paired due to their subject matter, shape, and dimensions. Each painting on fabric has a wide floral border and depicts a couple in a flowery garden.

Undoubtedly, there is a symbolic meaning... to be discovered. The frames, with their textured effects, are in good condition. The fabrics are also in good condition, with fresh colors. Very decorative. Visible dimensions: 42.5 cm x 42.5 cm for one, 42.5 cm x 41 cm for the other.

Overall dimensions: 47.5 cm x 45.5 cm for one, 47 cm x 46 cm for the other
