Description

Napoleon III Games Table in Black Lacquered Wood with Painted Decoration, 19th Century
An elegant Napoleon III period games table, crafted from black lacquered wood, richly adorned with polychrome painted decoration and gilt highlights. The reversible top features, on one side, a magnificent hand-painted decoration depicting a flower basket accompanied by two birds, framed by finely executed gilt scrolls. The other side is covered with a green felt, allowing its use as a games table. The apron, decorated with painted floral garlands, and the cabriole legs with four curved feet, highlighted with gilt motifs, perfectly illustrate the refinement of the Second Empire style. A piece that is both decorative and functional, ideal for an elegant living room or a characterful interior.
