Period : 20th century

Condition : Très bon état

Material : Gilted wood

Description

Magnificent decorative high relief in finely carved and gilded wood, representing a rich and harmonious composition of exotic birds (pheasants) moving amidst a profusion of flowers and foliage, emblematic motifs of traditional Chinese art symbolizing prosperity, elegance and abundance. The sculpture is distinguished by a deep and highly detailed relief, with volumes strongly set apart from the background, offering a remarkable richness of detail in the plumage, petals and plant stems. The antique gilding, subtly patinated by time, lends the piece a warm and refined decorative presence. Inspired by classical Chinese decorative arts, this piece was created during the 20th century for interior decoration, in a highly sought-after traditional yet decorative style. Characteristics: o Technique: carved high
