Pair Of "café-au-lait" Cups And Saucers In Chinese Imari Porcelain - Qianlong Period

450 EUR

Period : 18th century

Condition : Bon état

Material : Porcelain

Diameter : 11.4 cm

Description

Pair of Chinese Imari café-au-lait cups and saucers - Qianlong period (circa 1740-1770)

A rare and refined pair of Chinese export porcelain café-au-lait cups with their matching saucers, decorated in the Imari palette of underglaze cobalt blue, iron red and gilt highlights.

The central motif depicts a flower basket surrounded by butterflies and insects, finely painted within a scalloped Imari border. The exterior is covered with a distinctive chocolate-brown glaze, typical of Chinese Imari wares made for the European market.

These handle-less cups are in the true 18th-century café-au-lait size, produced specifically for coffee with milk.
