### Description

LB7 Wall Bookcase - Single Column with  
Secretary

Italy, circa 1957

Manufacturer: Poggi

Designer: Franco Albini

Rare LB7 wall-mounted bookcase in a  
single-column configuration, designed by Franco  
Albini and produced by Poggi in the 1950s.

This example features one vertical bay with  
adjustable shelves and an integrated fold-down  
secretary desk, mounted on Albini's iconic  
floor-to-ceiling adjustable jack system, allowing  
installation without wall fixation.

The light architectural structure, the clarity of the  
construction system, and the rigorous balance  
between function and form make this LB7 an  
emblematic work of post-war Italian modernism.

The integrated secretary offers both domestic and professional use while preserving a restrained and elegant formal language.

This single-column configuration, less common than multi-bay compositions, is particularly well suited to contemporary interiors with more limited space, while retaining the sculptural and intellectual presence of Albini's original design.
