molding 4.7 cm. Round socket with a projecting molding at the bottom and, welded to the front and back, a hook for attaching the tie. Height 9.5 cm, diameter 3 cm, height of the lower projecting molding 3 mm, height of the hooks 4.2 cm.

Weight 1.440 kg. France. Second Empire, 1852-1870. Very good condition, a few small dents on one edge of the box, some very minor oxidation spots on the eagle, superb gilding, matte in the background, polished with agate stone on the raised areas. This gilding has simply been cleaned and is entirely original.
