

## Animated 19th Century Landscape - "riverbank With Dovecote" - Important Period Gilt Frame

550 EUR

Period : 19th century

Condition : Bon état

Material : Oil painting

### Description

Description: A very beautiful 19th-century oil on canvas, executed in the style of the Barbizon school. The composition offers an atmospheric perspective of a riverbank enlivened by a figure (a washerwoman or peasant), with a pointed-roofed building (a tower or dovecote) nestled among the trees in the vanishing point. The brushwork is fluid, and the palette respects the ochre and green tones of Romantic painting. The work is enhanced by a spectacular 19th-century frame with wide moldings. The decoration is rich: foliate scrolls in the corners, friezes of heart-shaped motifs, and a wide gilt molding. This is a piece of character, highly decorative, ideal for adding charm and depth to a classic interior or for creating a striking contrast in a modern space. Condition: Good condition.
