Description

An elegant pair of gilt bronze and finely chased wall sconces in the Louis XVI style. Mid-20th century. Numerous cut-glass pendants lend the pieces considerable elegance. Each sconce has two lights. A beautiful central knot terminates in two cords. These sconces have never been electrified, but they could easily be (electrical wires can be inserted inside the light arms from the back of the sconces, see photo 8). The set is in very good condition. There is a tiny chip on the edge of one of the pendants. They are secured by inserting a screw in the center of each knot. Shipping within mainland France is EUR20; please contact us for other destinations.
