Description

20th Century Landscape and Bird Tapestry. This beautiful tapestry depicts a verdant landscape enlivened by birds, in a rich and balanced composition. The scene opens onto a distant view with architecture, framed by lush vegetation and enlivened in the foreground by birds and floral elements. The tapestry is surrounded by a wide decorative border with stylized motifs, highlighting the central scene and providing a beautiful decorative effect. The color palette, dominated by greens, blues, and natural tones, creates an elegant and calming atmosphere. This tapestry will find its perfect place in a living room, library, or bedroom, in both classic and contemporary interiors. Condition: Good overall condition, with slight signs of age and use. Period: 20th century. Technique: Woven tapestry.
