

## 17th Century Pewter Chalice

250 EUR

Period : 17th century

Condition : Bon état

Material : Tin

### Description

A beautiful 17th-century pewter chalice, notably featuring a remarkable foot with six lobes and a Templar cross on one of them. Two hallmarks are present on the underside: one depicting an angel holding a sword, the other a crowned flower with the letter E on either side. I have been unable to identify these hallmarks. In very good original condition, it measures 18.5 cm in height.
