### Description

A small (approximately 11 cm tall) Daum multi-layered glass nightlight/perfume burner with a slightly tapered ovoid shape, resting on a discreet base. Beautiful shades of orange and pink give the nightlight/perfume burner a soft, vibrant light when illuminated from within. The main decoration features a large stylized daisy in applied and cameo engraving. The neck is surmounted by an openwork mount with a vegetal motif, forming a perforated dome that allows for fragrance diffusion and heat dissipation, connected to an arched handle.
