

Orientalist Candlestick, Mid-19th Century

480 EUR

Period : 19th century

Condition : Très bon état

Material : Metal

Length : 39

Width : 14

Description

A painted spelter candlestick depicting an oriental woman with raised arms holding a cup that serves as a candle holder. Beautiful original polychromy finish and in very good condition. Spelter is a lead and tin alloy widely used during the Second Empire to produce finely molded decorative objects that support painted decoration. Less expensive than bronze, it allowed the bourgeoisie to acquire beautiful objects at a lower cost during a period that represented industrial progress.
