

## Pair Of Art Deco Wall Sconces, Circa 1930

1 200 EUR

Period : 20th century

Condition : Très bon état

### Description

An impressive pair of pressed molded glass wall sconces with a geometric design, mounted on a high-quality nickel-plated bronze frame. The glass is thick, sculpted, and very characteristic of the late Art Deco style of the 1930s. The nickel-plated bronze is well-designed, solid, and finely crafted. These pieces clearly belong to the lineage of great French Art Deco glassmakers, in the spirit of the productions of EJG (Jean Gauthier) or Verrerie des Hanots, or Verreries Val Saint Lambert. Dimensions: 22 x 33 cm
