Description

A cast iron ingot iron with a wooden handle, dating from the mid-19th century. A hatch at the back, secured with a hook, allowed the ingot to be inserted, maintaining a high temperature and preventing the soleplate from getting dirty. The cast iron has a beautiful polish, and the wooden handle shows traces of woodworm, which do not affect its durability. Shipping within France via Colissimo with tracking: EUR30 (weight-based).
