

Antique Star Pendant Light In Bronze And Cathedral Glass

1 160 EUR

Period : 20th century

Condition : Bon état

Material : Bronze

Description

Magnificent star-shaped pendant light, suitable for hanging or placing on a surface. The frame is made of gilded bronze, showing some oxidation. The panels are made of cathedral glass, meaning one side is smooth and the other has a slightly textured, hammered effect. All the panels are in perfect condition; this is not a recent reproduction. This chandelier is antique and authentic, of very high quality.
