

Set Of Aeronautical Instruments And Cockpit - Origins : France And Eastern Europe - Circa 1950

650 EUR

Period : 20th century

Condition : En l'état

Description

Set of 5 authentic aeronautical parts from various origins:
o Air France seatbelt (1970) - Model Type AF 351 with solid aluminum buckle bearing the historic "Winged Seahorse" logo -
Manufacturing label dated February 1970 o
Mechanical cockpit clock (Functional):
Military-type model with "8-day" movement, black dial with luminous markers and hands o
Cockpit clock (For parts) Non-functional o
Engine temperature gauge (Eastern European origin): Technical instrument graduated from 300°C to 900°C - The typography and the "°C x 100" symbol suggest manufacture from the Eastern European or Russian aeronautical industry o Gyroscopic heading repeater: Gray cylindrical case with compass rose - Preserved with its original wiring and multi-pin connector.
