

## Pair Of Empire Candelabra

1 750 EUR

Period : 19th century

Condition : Bon état

Material : Bronze

### Description

A beautiful pair of Empire period candelabra, circa 1810-1815, in two patinas: brown and gold. In good used condition. Both candlesticks are finely chased. It appears to me that the gilded spheres on which the cherubs stand have been regilded at a later date. The spheres were originally in a brown patina. Height: 49 cm
